Oxford University Press, United Kingdom, 2009. Part-work (fasciculo). Condition: New. 2nd Revised edition. Language: English . Brand New Book. The second edition of this essential handbook provides a practical, accessible guide to all emergency situations encountered during, and immediately following, anaesthesia. It covers the major specialties including cardiovascular medicine, respiratory medicine, obstetrics, and paediatrics, and each section begins with a clear table listing presentation, diagnosis, exclusions, immediate action, and follow up action. These subsections are then expanded upon in bullet format. Additional sections cover practical procedures such as how to insert a chest drain and how to administer inhaled drugs under anaesthesia, plus a concise drug formulary. The book will provide consultant and trainee anaesthetists, operating department personnel and anaesthetic nurses with a useful source of information and guidance that can be carried in the pocket, handbag or briefcase.
