CRETACEOUS DAWN

Leapfrog Press. Paperback / softback. Book Condition: new. BRAND NEW, Cretaceous Dawn, L M Graziano, M S A Graziano, ".An adventure-filled journey. In spite of its references to hard academic science, Cretaceous Dawn is a first-class adventure story, an effortless read as engaging as vintage Jules Verne. The descriptive prose is both evocative and illuminating, and the plot has enough twists and cliffhangers to keep readers traveling on to the inevitable conclusion."--Natural History "The Grazianos, sibling scientists, combine speculation and science in a compulsively page-turning time-travel adventure. A physics experiment gone awry sends four people and a dog 65 million years into the past. Day-to-day survival among creatures like giant croc Deinosuchus and T. rex becomes a priority, even as the group of stranded scientists realizes that getting home involves a 1,000 mile trek across the amazing landscape of Hell Creek. Details about plants, animals and insects in the distant past set the stage for a tight, scientifically plausible plot with a wholly unexpected twist that will keep readers guessing."--Publishers Weekly A long-extinct beetle appears in a physics lab. Four-and-a-half people and a dog are hurled 65 million years through time, to the Age of the Dinosaurs, and paleontologist Julian Whitney and his companions have only one chance for rescue. Meanwhile in the lab, police chief Sharon Earles must solve the mystery of why half a body remains where five people had just been. Physicists try to determine what went wrong but can they fix the vault in time to retrieve the missing people--and do they want to? "A rip-snorting good yarn. . . . Cretaceous Dawn's strength is its ability to transport the reader back in time to truly experience the Cretaceous."--Dinosaur News "Rendered with a clarity and vividness that gives the novel its richness, Cretaceous Dawn is plain...
